

ABSOLUTE SECURITY SIMPLIFIED

You can count on JELD-WEN to deliver reliability, whether it's the energy efficiency of our windows or the steadfast performance of our many individual product features.

Notice the careful design of our MAG-Lock™, the industry's first magnetic one-touch automatic lock. MAG-Lock is a JELD-WEN exclusive, which now comes standard on Premium Vinyl sliding and single-hung windows.

- Easy, intuitive operation
- Lock indicator only visible from inside
- Low profile for a streamlined look
- Tamper-resistant design
- Noncorrosive to withstand any climate

Once again, JELD-WEN has raised the standard on vinyl windows and patio doors, offering the best of both worlds: exceptional, enduring quality and architectural options not available in vinyl until now. Whether for new construction or replacement, this versatile collection will most certainly add to the beauty and overall energy efficiency of your home.

RELIABILITY *for real life*®

PREMIUM VINYL WINDOWS

MAG-Lock™

RELIABILITY *for real life*®

A better look

In addition to matching the window's color, MAG-Lock's low profile allows it to blend in with the window. It sits on the face of the window to provide an unobstructed view, and the absence of screw holes creates a clean, streamlined appearance.

Why it's secure

Rigorous product testing is standard operating procedure for all JELD-WEN products. The MAG-Lock has exceeded all forced-entry tests. Its tamper resistant design features a fully concealed mechanism that includes dual lock bolts and hooks.

Easy to operate

With MAG-Lock, your JELD-WEN window locks automatically — creating an audible click. The integrated, ergonomic pull handle makes it easy to unlock and open the window in one intuitive movement. Once the magnet in the lock connects with the magnet in the

keeper, they act as one. Only the pull handle can break this connection. No other magnet will affect it.

Exterior View

The MAG-Lock is concealed and unidentifiable from the exterior of the home, creating a streamlined appearance and increased security.

Reliable

Rare earth magnets are one of the highest quality and strongest magnets in the world. They have a potential lifespan of up to 10,000 years and operate efficiently in temperatures ranging from 300° F to -150° F. Their effective range of approximately 5/8" will not affect pacemakers or other sensitive objects placed near the lock.

The MAG-Lock is just one of the reliable benefits of our Premium Vinyl single-hung and sliding windows. To see all the features for our windows and patio doors, visit www.jeld-wen.com.
