

AURALAST® WOOD - REAL DURABILITY
(Patent Pending)

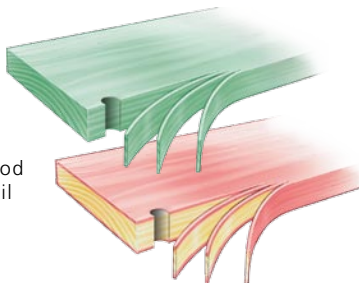

You can count on JELD-WEN® windows, doors, exterior door frames and components crafted from AuraLast wood to provide protection against:

- Wood Decay
- Water Saturation
- Termites

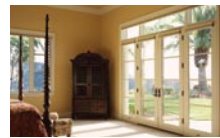

Note: Colors are used for illustration purposes only; AuraLast wood has a clear pine color.

Nail and screw holes will not compromise the integrity of AuraLast wood (Green).

In contrast, dip-treated wood (Red) is compromised by nail and screw holes.

We offer the industry's only 20-year warranty against wood decay and termites. For complete warranty information visit www.jeld-wen.com/auralast.

RELIABILITY *for real life®*

Replace old with new, easily and efficiently.

Replacing your drafty old windows with new, Premium Wood Pocket Double-Hung windows is the easiest way to make the biggest home improvement. Not only will you retain the beauty of natural wood, you will also save money on heating bills and give your home added security. These windows will give your renovation project years of reliability and beauty.

Pocket window - installing from exterior of building

Pocket window - installing from interior of building

Replace old drafty windows while keeping existing woodwork, plaster and siding in place.

JELD-WEN's Premium Wood Pocket Double-Hung windows come standard with energy efficient Low-E glass and are crafted with solid pine AuraLast® wood for enduring beauty. We offer various popular design options for these windows.

Standard features

- Solid pine AuraLast wood protects against wood decay, water absorption and termites
- Natural wood interiors are ready for painting or staining
- High-performance, argon-filled Low-E insulating glass for greater energy efficiency
- Preserve® Protective Film
- Designed for a 3-1/4" pocket
- White jamb liners
- Many egress sized units
- BetterVue™ Insect Screens let in more light and keep more insects out*
- Standard sizes up to 45-3/8"W x 79-3/16"H unit dimension
- Jamb adjusters (jamb jacks) for easier installation
- Easy operation of larger, heavier sashes
- Factory-mulled units

Optional features

- Solid pine AuraLast wood exterior option
- Primed or pre-painted White interiors
- Glass options: LoE³-366, Neat®, clear, obscure, tempered, tinted, high-altitude insulating glass (not available with argon)
- Sealed frame corners
- Tan-colored jamb liners
- Aluminum mesh insect screen frames available in nine clad colors*

Divided Lite Options

Simulated Divided Lite (SDL)

Full Surround (FS)

Grilles Between the Glass (GBG)

Low-E and LoE³-366 insulating glass

Our standard high-performance Low-E insulating glass lowers energy costs, helps homes stay cooler in the summer and warmer in the winter, prevents fading of interior furnishings, and reduces condensation. It also delivers greater visible light transmittance than tinted glass. We offer optional LoE³-366, which offers more protection against heat loss and fading, as well as greater energy savings. Windows and patio doors with Low-E glass are ENERGY STAR® qualified, which means they exceed the minimum energy efficiency criteria for the climate region you live in (by as much as 40 percent).

Cladding Options
