## Creating reliability

JELD-WEN® vinyl windows and patio doors include features that ensure durability and lasting visual appeal. They're built from high-quality extruded vinyl that resists fading and won't chip or peel, so they never need to be painted. All our vinyl windows are designed to meet the demands of the regions where they'll be installed.

### Low-E and LoE<sup>3</sup>-366 insulating glass

Our standard high-performance Low-E insulating glass lowers energy costs, helps homes stay cooler in the summer and warmer in the winter, prevents fading of interior furnishings, and reduces condensation. It also delivers greater visible light transmittance than tinted glass. We also offer optional LoE<sup>3</sup>-366 glass, which provides more protection against solar heat gain, as well as greater energy savings.

Many JELD-WEN windows and patio doors with Low-E or LoE<sup>3</sup>-366 glass are ENERGY STAR® qualified, which means they exceed the minimum energy efficiency criteria for the climate region you live in (by as much as 40 percent).

In warm weather, Low-E glass reflects the sun's energy and reduces heat gain inside the home.

In cold weather, Low-E glass reduces the amount of heat lost by reflecting it back inside.

### MAG-Lock™

#### Feature of Premium Vinyl

With MAG-Lock, the industry's first magnetic one-touch automatic lock, our single-hung and sliding windows are more secure and easier to use. The integrated, ergonomic pull handle makes it easy to unlock and open the window in one movement and it locks automatically in the closed position. For added security, the lock is only visible from the inside of the home.

### WEN-Lock®

#### Feature of Brickmould Vinyl, Builders Vinyl and Flat Casing Vinyl

Single-hung and slider windows lock automatically with WEN-Lock. This locking system has a slim profile that's easy to engage, as well as a tamper-resistant design. It also includes a visible latch indicator (VLI) that lets you know if a window is locked; the VLI can only be seen from indoors.

Unlocked

### Design options

With JELD-WEN vinyl windows and patio doors, you'll enjoy an ample assortment of design options. This includes our versatile, enduring color choices. For greater visual interest, you can also select a divided lite option with either flat or contour grilles in various sizes and patterns. *For options available in your area, contact your local JELD-WEN dealer.*

White

Almond

Desert Sand

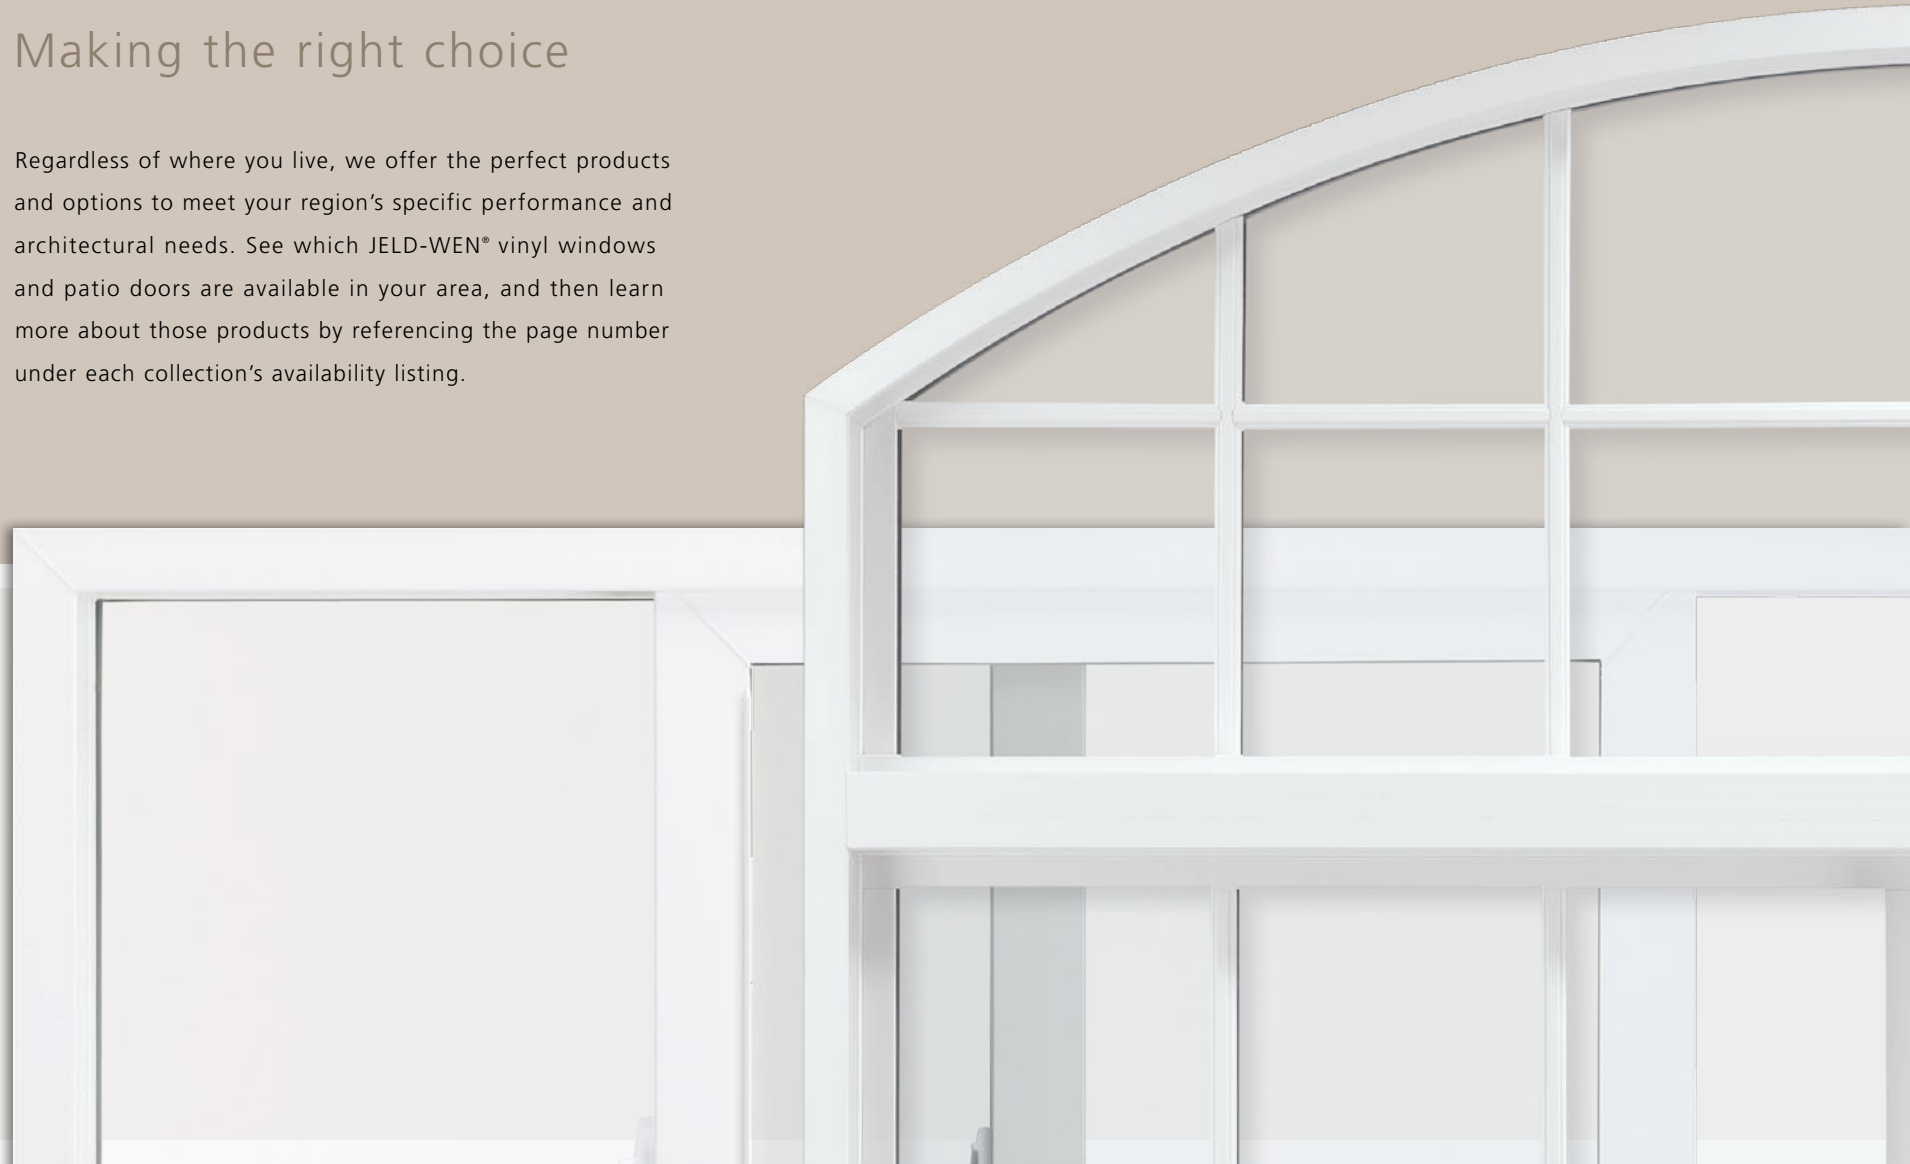

*Actual colors may vary from the samples displayed.*

We offer two internal grille options. Flat grilles feature a clean look, and contour grilles offer added character.

## Making the right choice

Regardless of where you live, we offer the perfect products and options to meet your region's specific performance and architectural needs. See which JELD-WEN® vinyl windows and patio doors are available in your area, and then learn more about those products by referencing the page number under each collection's availability listing.

## Inspiring selection

JELD-WEN produces various window styles to meet both your aesthetic and performance needs. We've included definitions of these styles here to help you make the appropriate choice for your home.

### Awning

An awning window is perfect for many architectural styles, and it looks intriguing when grouped with other window types. It is hinged at the top and opens out from the bottom in an upward swing.

### Bay

This type of window is ideal for traditional or Victorian architecture, and it increases the sense of openness in any room. A bay window is composed of three individual units. The center unit is parallel to the exterior wall with side or flanking units aligned at 30- or 45-degree angles.

### Bow

Bow windows subtly increase interior spaces by extending outward to create the illusion of a rounded exterior wall. A bow window consists of a series of four or more adjoining window units that are installed on a radius from the wall of the building.

### Casement

A casement window perfectly complements the simplicity of modern design. This type of window is hinged on either side so that the sash opens outward, to the right or left, in a swinging motion.

### Double-Hung

This window is best suited to traditional architectural styles. Double-hung windows feature an upper and lower sash that slide vertically past each other in a single frame. Both sash tilt in for convenient cleaning.

### Fixed, Radius and Geometric

Every fixed, radius and geometric window is unique. They're available in a wide variety of shapes, with either curved or straight frames. They can be used as freestanding units or in combination with other styles.

### Garden

With a garden window, you can add a little greenhouse to any room. This window is a projecting, three-sided window that includes one shelf, a glass top and a single-hung window on each side for maximum air circulation.

### Single-Hung

A single-hung window provides a classic appearance to any home. It features a stationary top sash and a bottom sash that slides vertically. We offer single-hung windows with tilt or side-load removable sash for easy cleaning.

### Slider

Each of our slider windows features clean lines for a streamlined look. This type of window has one stationary sash and one sash that moves to the right or left in grooves or on tracks. *It may also be referred to as a roller or sliding window.*

### Sliding Patio Door

This streamlined type of patio door is perfect for nearly any patio or deck. It opens by sliding along horizontal tracks.

### Swinging Patio Door

Add an element of drama to your home, on either a small or grand scale, with a swinging patio door. These doors are available with one or two panels that swing either out or in on side hinges.

## Premium Vinyl windows and patio doors

### Remarkably versatile

For low-maintenance durability and generous design options, choose Premium Vinyl windows and patio doors. Each one is available with optional even sight lines that create a clean, architecturally accurate look. This allows them to be used seamlessly in combination with JELD-WEN® wood windows. They also offer character-enhancing options that will coordinate with any architectural style. With a C-35 rating, these windows are appropriate for commercial applications.

#### Product availability:

## PREMIUM VINYL

Sliding window, color: White

### Optional even sight lines

Even sight lines ensure that our Premium Vinyl windows are symmetrical for a clean, architecturally correct look.

### MAG-Lock™

The MAG-Lock automatic locking system has an ergonomic handle, making it easy to unlock and open the window in one movement.

### Delrin™ rollers

Our sliding windows feature Delrin rollers, which allow sash to move smoothly along monorail tracks.

Our simulated divided lites (SDL) feature bars permanently adhered to the interior and exterior glass, with an optional shadow bar between the panes of glass.

### Key features

- Colors: White or optional Desert Sand
- New MAG-Lock™ one-touch automatic lock for single-hung and sliding windows
- Sliding windows include machined Delrin™ rollers for smooth operation
- Optional even sight lines
- ENERGY STAR® qualified with standard energy efficient Low-E glass
- Optional simulated divided lites with 7/8", 1-1/8", 1-3/8" or 2-1/8" contour grilles
- Optional grilles between the glass with 5/8" flat or 1" contour grilles
- C-35 rating

Color: Desert Sand

## Premium Atlantic Vinyl windows and patio doors

### Beautiful strength

Our Premium Atlantic Vinyl windows and patio doors provide you with the lasting durability you need and the aesthetic features you want. They're designed to be an architecturally accurate choice with a range of design options that will add visual interest to any home. These windows and patio doors are available with ImpactGard® protection for areas prone to hurricanes.

#### Product availability

To see if this line is available in your state, refer to the map on page 7.

To learn more about our Premium Atlantic Vinyl windows and patio doors, request the Premium Atlantic Vinyl catalog at [www.jeld-wen.com](http://www.jeld-wen.com).

### Key features

- Colors: White or optional Desert Sand
- ENERGY STAR® qualified with optional energy efficient Low-E glass
- Optional ImpactGard® protection
- Optional 1" simulated divided lites
- Optional grilles between the glass with 5/8" or 7/8" flat or 5/8" or 1" contour grilles

Casement window, color: Desert Sand

## PREMIUM ATLANTIC VINYL

### ImpactGard protection

This option includes impact-resistant glass that stands up to strong impacts from wind-borne debris, as well as harsh conditions inherent to coastal areas. In fact, it features the industry's leading laminated glass technology that can withstand a nine-pound piece of lumber striking it head-on at approximately 34 miles per hour. It also reduces sound transmission, blocks up to 95 percent of harmful UV rays, and enhances home security.

Color: White

Our simulated divided lites (SDL) feature bars permanently adhered to the interior and exterior glass.

## Flat Casing Vinyl windows and patio doors

### Lasting authenticity

With Flat Casing Vinyl windows and patio doors, the look of traditional wood windows is within reach. Each window features a sloped sill and three full sides of 3-1/2" casing for architectural accuracy; coordinating patio doors include flat casing on the sides of the frame. These products are ideal replacement options for American Colonial-style homes, and they can greatly reduce the cost of exterior trim for new homes.

#### Product availability

To see if this line is available in your state, refer to the map on page 8.

- Key features**
- Colors: White or optional Desert Sand
  - 3-1/2" flat casing
  - Architecturally correct sill nosing
  - Frames come standard with integral flat casing J-channel
  - ENERGY STAR® qualified with standard energy efficient Low-E glass
  - Optional grilles between the glass with 5/8" or 7/8" flat or 5/8" or 1" contour grilles

Double-hung window, color: White

Color: Desert Sand

The integral flat casing J-channel allows siding to slip between the casing and nailing fin for a clean look.

Flat grille

## Brickmould Vinyl windows

### Traditional durability

Bring the visual appeal of Georgian architecture home with Brickmould Vinyl windows. Their design includes integral brickmould profiles for the look of traditional wood windows. This feature also creates a look that's as clean as it is architecturally appropriate.

#### Product availability

To see if this line is available in your state, refer to the map on page 8.

To learn more about our Brickmould Vinyl windows, request the Brickmould Vinyl catalog at [www.jeld-wen.com](http://www.jeld-wen.com).

## BRICKMOULD VINYL

### Key features

- Colors: White or optional Desert Sand
- Frames come standard with integral brickmould J-channel
- Exclusive WEN-Lock® (for single-hung and slider)
- ENERGY STAR® qualified with standard energy efficient Low-E glass
- Optional grilles between the glass with 5/8" or 7/8" flat or 5/8" or 1" contour grilles

Flat grille

Geometric window, color: Desert Sand

Color: White

The integral brickmould J-channel allows siding to slip between the brickmould and nailing fin for a clean look.

## Builders Vinyl windows and patio doors

## Windowmaster™ Vinyl windows and patio doors

### Enduring choices

We offer Windowmaster Vinyl windows in three distinctive collections. Our 800 Series offers clean lines and low-maintenance, and it includes stainless steel hardware that withstands the daily rigors of coastal environments. For a traditional look with solid energy efficiency, select our 700 Series double-hung windows. The streamlined design of our 600 Series is well suited to more modern homes. Features shared by all these collections are highlighted here.
