Inspirations™ Art Glass allows you to do just what the name suggests, let your doors and windows reflect the inspiration of your imagination with your choice of design and color!

Designs

The process begins with conceptual design. Our seven beautiful Inspirations Art Glass styles originated from the imagination of our in-house designers.

Resin Bead

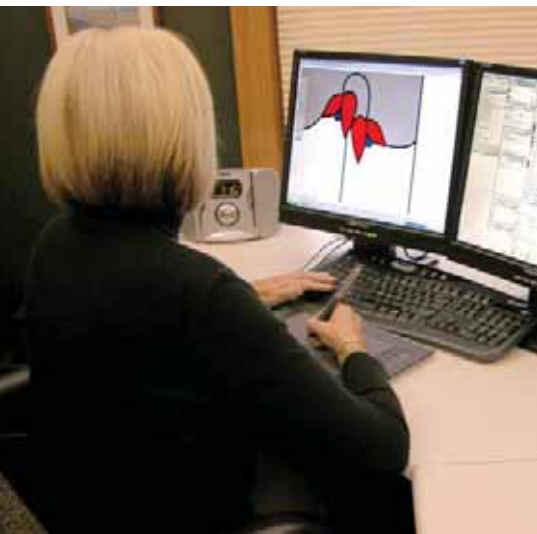

The design pattern is created on our computer software, and sent to a CNC machine which applies a resin bead to the surface of the glass in one of our four stylish colors.

Color Fill

The color fill truly brings the glass to life. Five distinct color palettes are offered empowering you to perfectly reflect the personality of you and your home. Our craftsmen hand-apply this color fill to your glass.

Our Guarantee

The resin bead and color fill are backed by our Lifetime Limited Warranty, and will not fade, blister or peel away from the glass.

Our seven resin styles originated from the imagination of our in-house designers.

Our Inspirations Art Glass combines the latest technology with the personal touch of hand-applied colors.

ComforTech™
Warm Edge Glazing Systems

Entry Systems, Prestige Vinyl Patio Doors, and Integra Vinyl Windows with Inspirations Art Glass utilize our ComforTech™ Warm Edge Glazing System and are ENERGY STAR® qualified.

Keep Your Privacy

Our Privacy Collection glass allows light to filter in, while keeping a high level of privacy. When our hand applied color fill is added to an area it brings a vibrancy and elegance to your home.

All our Inspirations designs are available with these optional Privacy Collection Glass types.

Taffeta

Made to resemble the texture of taffeta fabric, this abstract swirling pattern brings a whimsy feel to your home.

Gluechip

This popular pattern resembles ice crystals on glass in the winter. A striking effect that blocks visibility without blocking out light.

Chinchilla

Created to resemble chinchilla fur, this obscure texture provides maximum privacy.
